Yesterday afternous, Professor Drummond (the author of "Natural Law in the Spiritual World," and Dr. Smith, also of the University of Edulurga, pole to the students of Yaie University of World, and Dr. Smith, also of the University of Christian Life. "The lecture route to what he gentleman from with market print on the what he gentleman from a period of the Christian species of the University of Edulurgh. We are here to-do say.

Before beginning his address proper, Professor Drummond said: "My fellow students: We are here to-day as a delegation from the students of the University of Edulurgh. We do not come from Christian associations, but simply from the students there to meet with fellow students here. I must thank you for the extraormanty large gathering here. It touches its deep students when the comment of the comm

forms. Imagine this country without the salt of Christianity!

"Show me ten square miles outside of Christianity where the life of man is safe and the purity of woman respected, and I will give Christianity up. I appeal not to your sympathy, but to your common sense. There is nothing to equal the cause of Christ in greatness and nobleness. It asks a man to be greater than he ever conceived of being. He that would be great, let him serve; let him go about doing good. The world is a lively place and I have seen nearly all the good things in it, but I shall not give my life for it. It is a mistake for an educated gentleman to give his life for anything but the best. This does not mean that we are all to be missionaries, but that we are to do God's work and propagate His kingdom on earth.

"There is a great deal of religion in this country, but not much Christianity. The object of our being here is that we may become like Christ, and that is the object of a college and university. The religion of Christ appeals to the best men in the best way, and for the most nesful life. Pass this on from college to college; for what will become of Christianity if you, the bright men, leave Christianity to be carried on by enthusiasts! Pass it along and enjoin the men in your sister colleges to help you in saving the lives of themselves and their country."
